No new provisos are needed for this amendment.
Rationale:
By adding the anti-discrimination and anti-hazing statement the Society will come into compliance with current Americans with Disabilities Act. The update broadens language and moves it to a more visible position.

Pros:
- The Society will become compliant with federal, state and local regulations, thus reducing potential future liability.
- Many collegiate sections are required by their college or university to add this type of language to their section governing documents. Adopting it in the Society bylaws creates more uniform wording and reduces workload for individual sections.
- The language has been reviewed and approved by SWE’s legal counsel.

Cons:
- There may be introduction of redundancy for those sections required to sign an additional anti-discrimination or anti-hazing policy.
- Moving this policy from article II to article I and expanding to include specific anti-hazing language may incorrectly give the impression that SWE has been facing issues in these matters. In fact no issues have been brought to SWE leadership and this is being implemented on a proactive basis.
- Inclusion of “gender identity, or gender expression” may cause confusion regarding Scholarship and Award Programs. Based upon review from SWE’s legal counsel, this change will NOT affect or change the current criteria for these programs.

Recommendation of Bylaws Committee:
The Bylaws Committee recommends approval of this amendment as presented.
